## CHURCH AUDIO TRACK (CBT)

### Course Description

Church University through its Church Audio Track is the platform for those starting out in audio production and for those leading the teams. You'll be able to equip your person or team by maximizing training time and hours, sending your volunteers and/or staff through our online video training.

You'll find everything you could want your volunteers or staff to know about running the church sound booth. You'll learn how to fix and prevent feedback sounds. You'll select the right sound systems and equipment without breaking the bank. Your sound team will learn how to mix on a soundboard for live worship and preaching.

The Church Audio Track of Church University will help you learn ways to recruit and empower your audio team to be the most effective for you and the church.

### [Director Module – Turn Your Best Volunteer into Your Audio System Engineer and Director](#)

- CAT Dir 01 – Church Audio Director Track Overview
- CAT Dir 02 – Production with a Purpose
- CAT Dir 03 – Owning It
- CAT Dir 04 – Spiritual Awareness
